

Approaches to Learning Activity for 24 to 30 Months

The Edible Snowman

This game encourages creativity and provides experiences of sensing, design, and form. And it's yummy to eat!

Materials:

- Vanilla ice cream
- Nuts, raisins, and interesting cereal shapes

What to do:

1. Place two scoops of vanilla ice cream one on top of the other on a plate.
2. Set out a variety of nuts, raisins, and interesting cereal shapes.
3. Encourage the child to make a face on the ice cream snowman. He may prefer to put the goodies all over the ice cream. Either way, you will stimulate his creative juices.
